Complete automation from folding to franking

### Saves you hassle

The Jet+ range all come with the most common postal rates integrated into them. Simply place the mail on the scales and the system automatically sets the exact postage, ensuring you never pay more than is required.

### Saving you money

Users of franking machines will get a 2p discount\* on every 1st and 2nd class letter they send, making it cheaper to send a franked item of mail than a stamped one.

(\*Discount on letters up to 100g. Prices effective from 21st August 2006)

### Flexibility & choice

The Jet+350, 450 & 650 all come with a choice of integrated weigh platform or interfaced scale meaning you can tailor fit the franking machine to your exact requirements.

### Re-credit your machine 24/7

Crediting your franking machine is quick and simple, and you needn't leave the office to do so. Simply enter the amount you require and at the touch of a button your postage is downloaded via your phone line direct to your machine, so you won't have to waste time queuing at the post office to re-credit your machine.

### Additional security for the office

You also have additional peace of mind with low postage and high volume warnings preventing you from running out of credit or overpaying on your mail.

Franking machines provide added security as they do away with having to keep loose stamps and petty cash to buy them in the office. You can increase that security further by locking your machine at night and controlling operator use through PIN security.

### Operator friendly

With large control panels, easy to read displays and programmable job settings the Jet+ range are easy and simple to use requiring no operator training.

### Enhance your mail

Featuring the latest in digital franking technology, Twofolds Jet+ range enhances your company image by producing crisp, clear impressions for professional looking mail every time.

### Create the right impression

Increase your communication through printing custom slogans and text messages as well as high resolution graphics, logos and images for a cost-effective and simple means of promoting your business.

### Greater control of your budgets

You can control costs and postage expense with the accounting and reporting feature, which will track postal costs for each department providing you with greater control over your mailing budget.

### Complete Automation

You can automate your entire mail process by connecting your machine to a Twofold Folder Inserter, maximising on those time and money saving benefits. (Jet +250 not included)

### Why choose Twofold?

Our experience and wealth of knowledge in simple and efficient mailing solutions ensure you get the advice, service and support that you expect. We believe the customer comes first, so whether you have high volumes or the occasional item, we can find the system that's right for you.

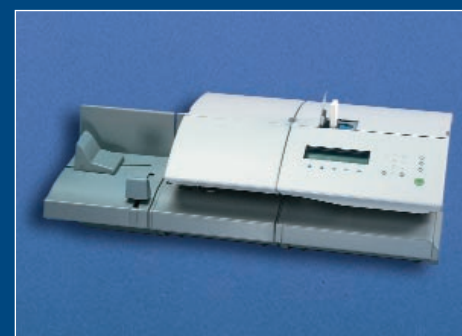

The Jet+250 is the perfect choice for the small business, offering advanced features at low cost. Its compact design and easy operation enable the Jet+250 to fit into any office environment.

With its compact size and simple operation, the Jet+350 is fast, flexible and affordable. The Jet+350 is the ideal mailing solution for increasing your mailroom productivity and efficiency.

With its host of advanced and user-friendly features, the Jet+450 takes your mailing productivity to the next level. Optional modules allow the Jet+450 to grow with your business for a cost-effective solution to your mailroom requirements.

The Jet+650 featuring an innovative new transport and digital printing system is both fast and quiet; the perfect partner for high volume mailings. Able to track postal spend for up to 50 departments and produce reports at the touch of a button, the Jet+650 is at home in any size mailroom.
